

EASY STRIP

PROFESSIONAL, LATEX BASED CLEANER FOR REMOVAL OF DIRT AND SMOG BUILD-UPS

Description:

EASY STRIP is a water based, specific professional cleaner used on external cladding. Monuments, tombstones to remove smog or carbon monoxide build ups, dirt and grime or atmospheric deposits. Product applied to surface will allow to deeply clean materials pores following completely the form of material. Highly recommended on delicate surfaces where traditional cleaning systems cannot be used. Once applied product will form a membrane on surface which is removed without using water or particular machinery. Effective on all internal and external surfaces and finishes. Products does not contain acids and is no toxic.

How to use:

Protect and cover all surroundings and metallic fixings using PVC sheeting and tape. Wear suitable PPE equipment during product use (gloves, eye protection and clothing). Product is ready for use. Remove any loose debris or dirt from surface before proceeding with treatment.

Proceed to apply by brush one coat of product to area to be cleaned, apply uniformly and completely over area. Allow 4 hours before proceeding with second coat. Allow a period of 24/36 hours before product becomes completely a rubber based membrane. Once hardened, peel membrane from surface removing dirt and grime with its removal. Do not apply the product with temperature below 10 °C.
