

# QUARTZ CREAM

## MULTI SURFACE, CREAM DETERGENT FOR QUARTZ, MARBLE AND GRANITE WORKTOPS.

### Description:

Specific cream detergent containing micro abrasives indicated for the maintenance and removal of stubborn dirt and grime from quartz worktops. Highly effective on felt pens marks, light scratches, surface stains and for the removal of patinas and build ups from installation. Product can be used for daily maintenance of worktop surfaces removing limescale residues and build ups from marble and granite worktops and vanity units.

### How to use:

Shake product before use. Remove all excess surface dirt, dust and debris before proceeding with application. Always proceed to test product first in a small area so to determine product suitability with surface.

Pass a damp cloth over area to be cleaned so to humidify surface. Apply a small amount of product to area and proceed to work area with a white felt pad using circular movements. Do not allow product to dry on surface. Add water to maintain a cream texture. Remove when stains and surface has be cleaned using a damp clean cloth.

### Dilutions:

n.a.

### Notes:

Whoever before using this product, should fully read completely the product label, the technical data sheet and material safety data sheet or contact us directly for any information. We highly recommend to follow precisely all indications within supplied documentation. We highly recommend that the product is always tested first in a inconspicuous area so to determine the products compatibility and final result with the material to be treated. In all cases please maintain packaging tightly closed and always out of the reach of children. Always supply adequate ventilation when using product indoors and do not eat or drink during product use.

### Coverage:

Depending on surface and residues to be removed, 200 ml is sufficient to maintain a standard worktop or vanity unit.

### Packaging:

200 ml bottles in boxes of 12 pieces
