

# SHINE H2O

## PROTECTIVE ENHANCING WAX FOR MARBLES AND GRANITES

### Description:

Water based, protective enhancing wax for marbles and granites. SHINE H2O penetrates deeply inside materials pores eliminate surface defects and marks, uniforming the aspect of material, colour and brightness. Highly durable in time and allows easier and quicker maintenance of surfaces due to its protective qualities. Product can be applied on all polished and brushed surfaces. Highly recommended to be inserted into the process of slabs with application at final stage to give slab final finish and polish before stocking. SHINE H2O can be coloured on request.

### How to use:

Always test product first before proceeding with complete product application in order to determine final finish and products compatibility with material. Wear suitable PPE equipment during product use (gloves, eye protection and clothing). Product is ready for use. Do not apply where temperatures are below 10 °C

Apply to clean and dry surfaces. Apply a small amount of product to the area to be treated by cloth or spray. Allow a few minutes for curing before polishing using a clean cloth or white felt pad. For inline application, product can be applied through nozzles in wax application phase of line. Product can be diluted based on tests in-line to verify application and results.

### Maintenance:

n.a.

### Notes:

n.a.

### Coverage:

1lt of product will treat polished surfaces from 35 to 50 m2. On brushed surfaces 1lt of product will treat from 30 – 40 m2 .

### Packaging:

5000 ml containers available in boxes of 2 pieces - 10 l. and 60 l. containers available on request

*Whoever before using this product, should fully read completely the product label, the technical data sheet and material safety data sheet or contact us directly for any information. We highly recommend to follow precisely all indications within supplied documentation. We highly recommend that the product is always tested first in a inconspicuous area so to determine the products compatibility and final result with the material to be treated. In all cases please maintain packaging tightly closed and always out of the reach of children. Always supply adequate ventilation when using product indoors and do not eat or drink during product use. Our technical advice, whether verbal or in writing is given in good faith without warranty and should not be considered binding towards third parties. We highly suggest that product is used always under the best professional working conditions possible. Product use and application is under the sole responsibility of the user and beyond our control. We guarantee product quality as of our production standards and supplied terms and conditions. Should, in spite of this, liability be established for any damage, it will be limited to the value of the goods delivered by us and used by you.*
